Welcome to Hemknoll

"Home of Fine Hems"

We are pleased to send you our Hemerocallis Catalog and think that you will find this year it is more interesting than ever. In 1955 I attended the A.H.S. Meeting in Baton Rouge as well as visiting many daylily gardens throughout the country in search of the better new things to add to our collection of well over 400 varieties. At the same time comparisons were made of our own daylily seedlings so that we could be sure to offer only the best for your gardens. We grow many plants that we don't list so please, if you are looking for some special variety, we may have it in limited numbers.

During the 13 or more years that I was actively connected with two of the top perennial firms of the nation I have observed hundreds of perennials both new and old. This experience has enabled me to offer you some perennials that by their very nature have proved to be fit companion plants for Daylilies. These are offered on back inside cover.

We wish to sincerely thank the many customers that we have served in past years and hope to be able to serve each of you in 1956.

CULTURE—Daylilies are among the very hardiest and easily grown of all perennials. All that we list are extremely hardy as we only cover our newly set plants the first year to prevent heaving. This is good practice anywhere that freezing exists. Any sort of soil will grow daylilies, however, they do repay one's efforts in better bloom and growth if the soil is prepared with old compost or manures. Avoid low wet areas. Small amounts of fertilizer on established planting twice a year is beneficial. Plant new plants with soil 2" above the *well spread* roots and firm well, then *soak*. They do best in full sun but can be planted wherever four hours of sunlight can be had. Watering at blooming time will increase size and improve color. When once established they need no moving for years.

SHIPPING—March 15 thru May 15 and August 15 thru November 15. I like to receive nice plants and I endeavor to send nice true-to-name plants. All are freshly dug, carefully packed with a permanent aluminum embossed label for every variety and accompanied by N. J. State Inspection Certificate. Directions for planting included with every order.

TERMS—Cash with order. Orders of \$4.00 or over prepaid. Add 50 cents for packing and postage on orders for less. If you add 50 cents for postage to any order over \$4.00 you may select any \$1.00 plant as an extra.

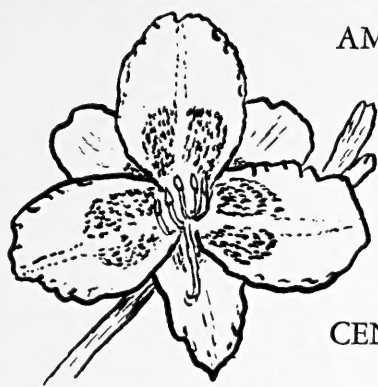

PREMIUMS—Orders for \$10.00 to \$25.00 select 10%, over \$25.00 select 15%, in **EXTRA PLANTS**. Or we will send something extra that we hope you will enjoy. *No discounts* on collections or items marked net.

LEGEND: E—Denotes early bloom; M—Midseason bloom; L—Late bloom; Height in inches. Number preceding variety indicates position in 100 Most Popular as selected by members of Hemerocallis Society in 1955 Popularity Poll.

WELCOME—For those of you who can, we welcome your visit during July and August—the height of our season. Here you can see many too scarce for listing as well as our own seedlings. We are located on Reynolds Avenue near the Morris County Fair Grounds in Troy Hills, about halfway between New Jersey Highways 10 and 46.

TROY HILLS

AMBER FLAME (Stevens '56) ML 40" Without a doubt this triangular flowered daylily is one of the very largest that we have seen. We have grown it for a number of years and it never fails to excite visitors. A smooth buff apricot self on good stems that is fairly wide for so large a bloom. Dor.

Net. Fall Del. 10.00

CENTURION (Stevens '56) ML 40" (Lady Baltimore) X (Purple and Gold X Royal Ruby) #62-45. Another of Stevens exciting reds; this one a fast, lush growing warm red between Napal Red and Brazil Red over a gold to orange undertone. A very fine judge describes it as "a warm red overlaid with veins of cold red" however I can't see any cold red for it is a most intense, vivid warm red with as many as five blooms out at once on beautifully branched scapes. The medium sized blooms are quite broad and widespread. Junior Citation '55. Semi-ev. Net. 20.00

CONFIDENCE (Baker '56) M 34" Widespread broad flowers of an interesting salmon peach color, much like that on the exposed cheek of a really ripe peach and further enhanced with a slightly green throat. Later in the day it becomes a smooth pink. Some particularly fine pink and melon blend seedlings have resulted from this daylily. Dor. Net. 15.00

TROY HILLS (Baker '56) EE 24" About the first to bloom here and low growing. Intense orange with a very definite maroon zone, that appears to be stippled on the orange much as you would use a dry brush for applying pigment to a painting. The flowers are extremely widespread, broad, and quite flat with very much ruffled margins, heavy substance, and sunfast. Will repeat on taller scapes in the fall. Wonderful in a clump. Dor. Net. 7.50

Previous HEMKNOLL INTRODUCTIONS

KEY LARGO (Baker '55) L 32" (Winona X Doeskin) X (Duch. of Windsor X Bountiful) Light sunfast cream with medium sized, full, widespread 5" flowers. Moderately branched, fine for prolonging the season. Dor. 10.00

REVELATION (Baker '55) M 30" (Orange Sdlg. X Samarkand) Huge, broad, widespread, rich cinnamon self with orange throat. Sepals and petals very broad and nicely ruffled. Absolutely sunfast, remaining open late. Excellent parent. Semi-ev. Net 15.00

WATCH FOR PLUM GOOD IN 1957

SPLENDOR (Stevens '55) ML 34" (Saladin X Seedling) This exciting large widespread, full crimson red self with 6" blooms on good scapes brought raves from many parts of the land in 1955. It was never better here with its rich color running deep to meet a tiny green yellow throat. Sunfast. Junior Citation '54. H. M. '55. Dor.	Net. 30.00
TINKER BELL (Stevens '55) EM 28" Tiniest orange bells on extremely well branched scapes. Often as many as 5 open at once. A real novelty. Dor.	5.00
TUDOR ROSE (Stevens '54) M 30" (Redman X Vulcan) X (Fulva Rosea X Sdlg.). Wide medium sized rose pink that fades gracefully to a silvery pink with a green yellow throat. We think this is one of the very best pinks and find that it is making its way in many parts of the country. Dor.	12.50

GROUP 1

In this list are some of the older day lilies, but don't be misled because they are older, for some of the very best varieties are to be found here. Just to mention a few such as Caballero, E. W. Yandre, Patricia or Port—these and others are among my favorites.

They are inexpensive and can be planted in groups of 3 or more and will give established clump performance at once.

Price:—75 cents each, three plants of one kind \$2.00
